Attn: Dennis Jacobs, FTIP Coordinator

**Subject: Amendment No. 3 to the San Luis Obispo Council of Governments 2017 Federal Transportation Improvement Program**

Mr. Jacobs:

This letter submits for review **Administrative Amendment No. 17-03** to the 2017 Federal Transportation Improvement Program (FTIP) for the San Luis Obispo County Region. The San Luis Obispo Council of Governments (SLOCOG) Executive Officer is authorized to approve minor amendments to the FTIP.

**Summary of changes**

Amendment 17-03 makes changes to 9 projects. Changes occur to the following programs:

- State Highway Operating and Protection Program (SHOPP)
- Highway Safety Improvement Program (HSIP) Group Lump Sum Listing
- National Scenic Byway Program
- Railroad Safety Trail - Taft to Pepper Segment - ATP-5016(057)

**Financial constraint**

Consistent with 23 USC §134(j), 23 CFR §450.216(m), and 40 CFR §93.108, the FTIP, as amended, demonstrates financial constraint. This administrative modification exchanges programming in the amount of \$1,729,800 that relies on the State's federal programming capacity. The next 2017 FTIP amendment will update the financial information to reflect actual funding to support the exchanged programming capacity. The exchange is consistent with program guidelines, expansion to residential area outreach for transportation coordination opportunities. The exchange of \$1,729,800 is within the adjustment threshold maintaining fiscal constraint.

**Regional Transportation Plan**

Consistent with 23 USC §134(j)(3)(C), the amendment is consistent with the SLOCOG 2014 Regional Transportation Plan and Sustainable Communities Strategy (RTP/PSCS).

### **Air quality conformity**

In 2012, the EPA designated eastern San Luis Obispo County as a nonattainment area for 8-hour ozone. Projects in the designated area are required to have project-level conformity determination showing that the project comes from a conforming Regional Transportation Plan and TIP. The projects in the RTP and TIP should not further deteriorate the existing air quality problems.

A quantitative regional emissions analysis was developed using the SLOCOG Land Use and Traffic models in conjunction with EMFAC2011-SG. The analysis showed that the implementation of the transportation projects programmed in the 2014 RTP/PSCS and 2017 FTIP will not result in increased ozone.

### **Backup lists**

Backup lists for the SHOPP and HSIP grouped projects are listed in attachment D

### **Additional information**

This amendment is available on the California Transportation Improvement Program System (CTIPS) and SLOCOG's TIP database, TransInfo, at <http://transinfo.slocog.org>. Alternatively, if you would like a full copy of the 2017 FTIP and amendments, please visit SLOCOG's website at [www.slocog.org](http://www.slocog.org). If you have any questions regarding this amendment, please feel free to contact John DiNunzio, Regional Transportation Planner, FTIP Coordinator at (805) 781-5764 or [jdinunzio@slocog.org](mailto:jdinunzio@slocog.org).
